

Davis Regional Office — Davis, CA

Revised August 2017

Onions

Arizona, California, Nevada, and Utah

Crop Insured

All storage white and yellow type onions are insurable if:

- They are contracted for dehydration and processing only; and
- Premium rates have been established in the county.

White, red, and yellow onions are insurable if:

- They are for fresh use; and
- Premium rates have been established in the county.

Counties Available

Arizona - Cochise, La Paz, and Maricopa counties.

California - Fresno, Imperial, Kern, Kings, Modoc, Monterey, San Benito, San Joaquin, and Siskiyou counties.

Nevada - Humboldt, Lyon, and Washoe counties.

Utah - Box Elder, Davis, and Weber counties.

Onions in other counties may be insurable by written agreement if specific criteria are met. Contact your agent for more details.

Causes of Loss

You are protected against the following:

- Adverse weather conditions;
- Earthquake;
- Failure of irrigation water supply, if caused by an insured peril during the insurance year;
- Fire;
- Insects or plant disease, but not damage due to insufficient or improper application of control measures;
- Volcanic eruption; or
- Wildlife.

Insurance Period

Coverage begins when the crop is planted and ends with the earliest occurrence of one of the following:

- Removal of the onions from the field;
- 14 days after lifting or digging;
- November 7 for all storage onions in Modoc and Siskiyou counties;
- October 15 for all storage onions in all other counties; or
- August 31 for all non-storage onions.

 Acreage Reporting.....July 15, 2018
 Termination.....February 1, 2019

Coverage Levels and Premium Subsidies

Individual insurance amounts are based on your past production and planted acres. Coverage levels range from 50 to 75 percent of your approved yield. Crop insurance premiums are subsidized as shown. For example, if you choose the 65-percent coverage level, your premium share would be 41 percent of the base premium.

Item	Percent					
Coverage Level	50	55	60	65	70	75
Premium Subsidy	67	64	64	59	59	55
Your Premium Share	33	36	36	41	41	45

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100-percent subsidized with no premium cost to you. There is, however, an administrative fee of \$300 per crop, per county regardless of the acreage.

Price Election

The price used to calculate your premium and indemnity.

Late and Prevented Planting

Coverage that provides reduced protection on acreage that is planted late, or that cannot be planted by the final planting date or within the late planting period.

Loss Example

Assume 75-percent coverage, 100-percent price election of \$8.70 per cwt., an average yield of 400 cwt., and 100-percent share.

400	Cwt. per acre average yield
<u>x 0.75</u>	Coverage level
300	Cwt. per acre guarantee
<u>- 200</u>	Cwt. per acre actually produced
100	Cwt. per acre loss
<u>x 8.70</u>	Price election
\$870	Gross indemnity per acre

Price used above is for example only. Contact a crop insurance agent for current information.

Where to Buy Crop Insurance

All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at www.rma.usda.gov/tools/agent.html.
